

Dual Media Distributor

Because the distribution of water in the vessel is just as important as the water collection.

OPTIMIZED FOR GAC, IX, & OTHER MEDIA

Provides enhanced performance for vessels no matter if you use IX, GAC, or other novelty media.

OPTIMIZED FLUID DYNAMICS

Improved hydraulics for even flow distribution across the media bed.

REDUCED PRESSURE LOSSES

Improves energy efficiency and reduces operating costs.

SLEEK & STREAMLINED

Simpler and lighter design for easier handling and faster deployment.

HASSLE-FREE MEDIA CHANGEOUTS

Upper distributor requires no adjustments when swapping media types.
